DETAILED ACTION

1. Claims 1-70 are pending in the present application.
2. Claims 3, 16 and 63 have been amended.

Drawings

3. The drawings were received on November 12, 2004. These drawings are acceptable.

Allowable Subject Matter

4. Claims 1-70 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Applicant's amendment overcomes the rejection cited under 35 USC 112 second paragraph. Regarding independent method claim 1, the prior art of record fails to teach the following limitation: "providing a configuration library that includes data describing a spatial relationship between first and second items among said plurality of items in said product catalog; and permitting population of said modeled environment by storing, in a database, data representative of the spatial relationship between said environment hierarchy and a collection of items including said first item". The limitations of independent system claim 25 and program product claim 48 parallel that of method claim 1; therefore they are allowed for similar reasons as cited supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
